

U.S.S.N. 10/696,636  
Amdt. dated March 3, 2006  
Reply to Office Action of Dec. 28, 2005

2

Atty. Dkt. No. 77016

Amendments to the Specification:

Please replace the paragraph beginning at page 1, line 3, with the following amended paragraph:

The present application is a continuation-in-part application of U.S. patent application Ser. No. 09/939,500, filed Aug. 23, 2001, U.S. Patent No. 6,787,173, which was based on, and claimed benefit of, U.S. Provisional Application Serial No. 60/250,228, filed on Nov. 30, 2000, both of which are hereby incorporated by reference.
